RE: 2023 NHTCA Annual Audit

Dear Kelly:

The members of the Finance Committee met on August 7, 2023 to examine the Association's financial records for fiscal year 2023. We have found all entries made by the Association's Treasurer to be in exceptional order. All records were found to be organized and accurate. Joyce McGee continues to perform an excellent job as the Association Treasurer.

Due to the efforts of the Executive Board, the Association's accounts currently maintain an excellent financial status. As the Board continues to embark on ways to enhance the services offered to our Association members, the Finance Committee recommends the Board consider working towards a more cost neutral fee basis to offset profits from added revenue sources in keeping with the Association's non-profit status. It is suggested the Board consider awarding additional scholarships to attend the NHTCA Conference and increasing the amount of reimbursement to the County Coordinators to purchase additional gift baskets and other gift items for the annual conference.

The Finance Committee would like to recognize the Executive Board for their continuing efforts to meet the needs of the Association while offering exceptional financial management. We are very fortunate to have such dedicated individuals representing our Association.

Respectfully Submitted,

Daphne Woss
